

Geography at A-Level

Changing Spaces, Making Places

This topic considers the way that place is perceived. This is influenced by a wide range of informal and formal representations of place including pictures, statistics, blogs, social media etc.

Collect 5 representations of Lincoln which show the perception of place. Explain the perception of Lincoln they give.

Hazardous Earth

This topic looks at plate tectonics and the associated hazards. Choose one hazard and research a case study about it (volcano, earthquake or tsunami). Present your case study as an A3 page.

Preparation for the course

You will need the following items as well as your basic equipment for all geography lessons:

- A4 folder to file work
- A4 lined paper
- Coloured pens
- Coloured crayons
- Pencil
- Calculator
- Protractor

We look forward to seeing you in September!
