1 Introduction

At Lincoln Christ's Hospital school we recognise that the personal development of students, spiritually, morally, socially and culturally, plays a significant role in their ability to learn and achieve. We not only recognise that this is our educational responsibility, but that we must create well-rounded young adults who will grow to be responsible and knowledgeable future citizens. We, therefore, aim to provide an education that provides students with opportunities to explore and develop their own beliefs, spiritual awareness, high standards of personal behaviour, a positive, caring attitude towards other people, an understanding of their social and cultural traditions, and appreciation of the diversity and richness of different cultures and a positive attitude towards traditional British values such as democracy, respect, tolerance, individual freedom and the rule of law. We aim to ensure that we nurture students who can participate fully and positively in a democratic, modern Britain.

1.1 How this Policy was Created

This policy was informed by section 78 of the Education Act 2002, Ofsted's School Inspection Handbook, January 2015, DFE supplementary information - Improving the spiritual, moral, social and cultural (SMSC) development of pupils, November 2014, DFE – Promoting fundamental British values as part of SMSC in schools, November 2014 and Section 26 of the 2015 Counter-Terrorism and Security Act which requires schools have, '...due regard to the need to prevent people from being drawn into terrorism.' It was written by J Stevens, SMSC, BV, RSEHE and Citizenship Coordinator, following consultation with the Headteacher and full Governing Body.

1.2 Aims of our SMSC and BV Policy

This policy is a working document, owned and used by those to whom it applies. SMSC development helps prepare students for the opportunities, responsibilities and experiences of adult life. SMSC and BV activities contribute to personal development within students and the achievement of the curriculum aims for all young people to become:

- successful learners who enjoy learning, make progress and achieve
- confident individuals who can live safe healthy and fulfilling lives
- responsible citizens who make a positive contribution to society

SMSC, therefore, underpins all that we do as a school. It pertains to the personal development of the whole child. As such, every member of staff is involved. This policy, therefore, provides direction and guidance for the facilitation of SMSC and BV so that:

- a consistent approach to the delivery of SMSC and BV issues through the curriculum and the general life of the school
- pupils have a range of opportunities to reflect upon and discuss their beliefs, feelings and responses to personal experience
- pupils have the opportunity to develop an understanding of their individual and group identity
- pupils can develop an understanding of their social and cultural environment
- pupils can develop an appreciation of the many cultures that enrich our society
- each pupil has the opportunity to explore social and moral issues and develop a sense of social and moral responsibility.
